Health Tech
Conference
2023

The background of the top half of the page is an aerial night view of a city skyline, likely New York City, with numerous skyscrapers illuminated. Overlaid on this is a white, glowing geometric network of interconnected lines, resembling a molecular or data structure, which is semi-transparent and allows the city lights to be seen through it.

ABOUT THE EVENT

Our Health Tech conference is a fantastic opportunity to put your brand forward, both on the day and pre-event on one of our very well attended events of experts and industry leaders!

Innovation in Healthcare is crucial in order to meet changing demands and deliver better outcomes for patients. Manchester is home to world-leading research and development assets as well as the largest clinical academic campus in Europe and continues to be at the forefront of innovative healthcare treatments.

Our Health Tech Conference is now in its 5th year and has established itself as an essential, must attend event in the Healthcare calendar. We will explore what new and innovative ideas have been developed in the past 12 months and what kind of a difference are they going to make to the future of healthcare delivery in the UK. We will be looking at the changes in legislation, operating methods and culture and how all these things are driving a fundamental shift in our healthcare system for good.
