Health Tech Conference 2025

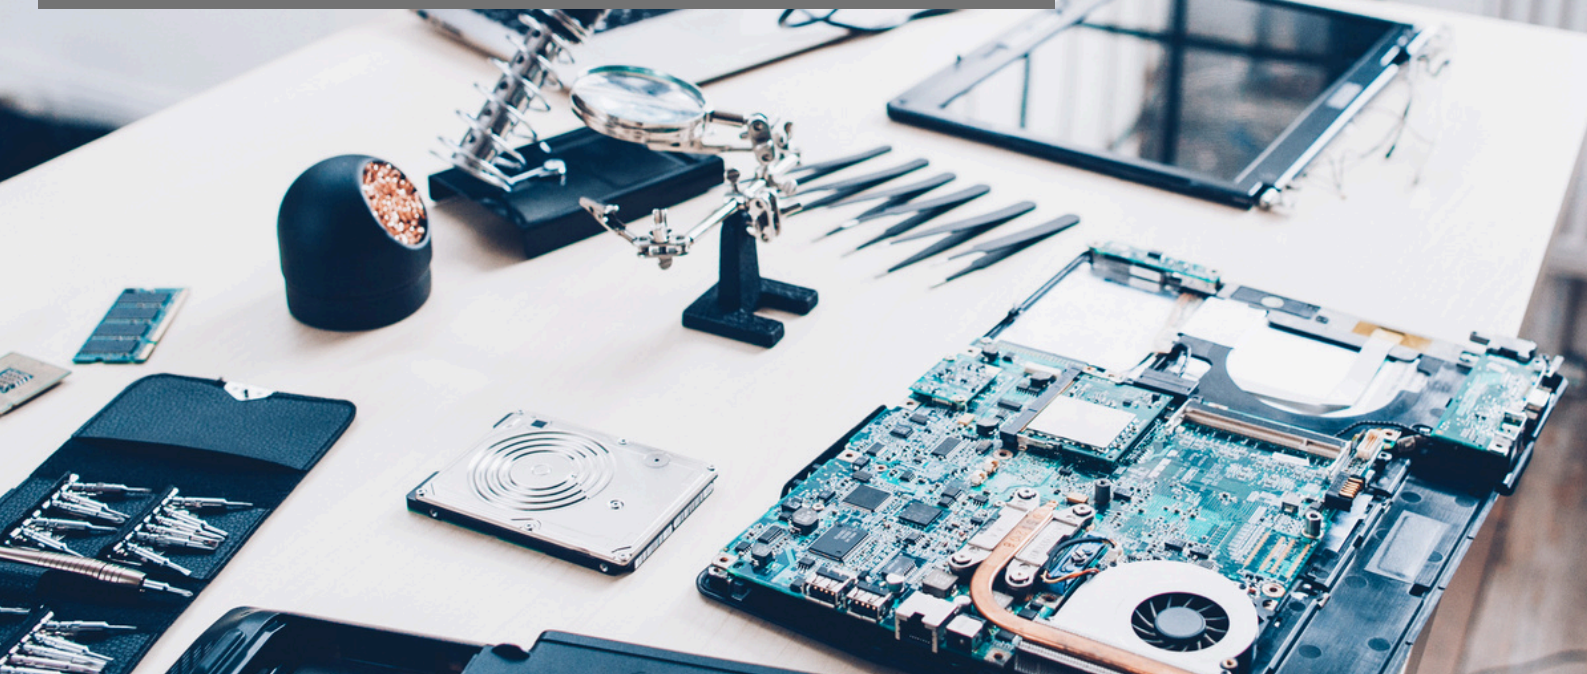

From Vision to Impact: Making
HealthTech work in Practice

Tuesday 2nd December 2025

**Sponsorship
Opportunities**

ABOUT THE EVENT

Innovation in Healthcare is crucial in order to meet changing demands and deliver better outcomes for patients. Manchester is home to world-leading research and development assets as well as the largest clinical academic campus in Europe, and continues to be at the forefront of innovative healthcare treatments.

Our Health Tech Conference is now in its 7th year and has established itself as an essential, must-attend event in the Healthcare calendar.

This year, our spotlight is firmly on the region's health tech achievements. We're shining a light on the organisations and people who are making change happen. Moving beyond policy documents to share practical insights, real progress, and inspiring stories from across Greater Manchester and beyond.

Join us as we focus on the Problem → Challenge → Solution, keeping away from policy and focused on practice.
